

**...is a day you'll
never forget!**

Every new Cacoyannis film is a major cinematic event. Remember "The Girl in Black", "Electra", "Zorba the Greek". Now Cacoyannis looks ahead using his magical mixture. With his personal blend of humour, drama and suspense, he dares to present a picture of our time which is loaded with explosive truth.

Completed in Greece in March this year, THE DAY THE FISH CAME OUT is Cacoyannis' most original film yet. He is the writer, producer, director and costume designer. As composer, Cacoyannis chose Mikis Theodorakis, chart-topping and academy-award winning creator of the "Zorba" themes.

Yes! THE DAY THE FISH CAME OUT is a day you will never forget.
